All of which is respectfully submitted,	

E. A. HUNTLEY,	} <i>Selectmen of Alstead.</i>
RUSSELL TINKER,	
F. J. CHANDLER,	

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

In compliance with the laws of the State, the following general and statistical report is respectfully submitted :—

DISTRICT NO. 1.—Summer term, Miss CORA N. BRITTON of Surry, teacher. Length of school, 7 weeks. Whole number of scholars, 5. Average attendance, 4.9. Tardy marks, 8. Visits, 7. Winter term, Miss NELLIE E. ALLEN of Walpole, teacher. Length of school, 10 weeks. Number of scholars, 14. Average, 13.7. Tardy marks, 0. Visits, 18. This school made fair progress during the year.

DISTRICT NO. 2.—Summer term, Miss LAURA M. TOLMAN of Springfield, Mass., teacher. Length of term, 10 weeks. Number of scholars, 17. Average, 16. Tardy marks, 4. Visits, 19. Winter term, Mr. W. J. PRENTISS of Walpole, teacher. Length of school, 10 weeks. Number of scholars, 20. Average, 19.1. Tardy marks, 4. Visits, 33. A marked feature of these schools appears in an increased average attendance and roll of honor, while tardiness has correspondingly decreased.

DISTRICT NO. 3.—Summer term, Miss MARY E. ALDEN, teacher. Length of school, 5 weeks. Number of scholars, 3. Average, 2.8. Tardy marks, 4. Visits, 6. A good work was accomplished. Winter term, WESLEY G. CARR of Keene, teacher. Length of school, 9 weeks. Number of scholars, 9. Average, 8.9. Tardy marks, 28. Visits, 19. The school appeared orderly, medium improvement being made.

DISTRICT NO. 5.—Miss SPENCER of Marlow taught the Summer term,—a good school. The winter term was taught by Mr. CHAS. L. LINSLEY, a genial and competent teacher. Register not returned.

DISTRICT NO. 6.—First term, Miss LURA C. STEVENS, teacher. Length of school, 10 weeks. Number of scholars, 9. Average, 8. Tardy marks, 4. Visits, 12. Inferior order, with moderate improvement. Second term, commenced by Miss MINNIE M. WHITTIER and completed by LIZZIE ALDEN. Length of school, 8 weeks. Number of scholars, 8. Average, 7.1. Tardy marks, 12. Visits, 16. This was a successful term.

DISTRICT NO. 7.—Three terms were taught by Miss NELLIE F. GOODHUE. First term, length of school, 8 weeks. Number of scholars, 9. Average, 8.9. Tardy marks, 4. Visits, 12. Second term, length of school, 6 weeks. Number of scholars, 14. Average, 13.5. Tardy marks, 10. Visits, 6. Third term, length of school, 12 weeks. Number of scholars, 15. Average, 14.1. Tardy marks, 10. Visits, 13. Commendable progress was made.

DISTRICT NO. 8.—Miss NELLIE S. PERHAM of Acworth, teacher. Length of school, 7 weeks. Number of scholars, 6. Average, 6. Tardy marks, 0. Visits, 18. For punctuality of attendance this was the banner school, there being neither absence, tardiness or dismissal,—an enviable and unusual honor. Second term, Mrs. ADDIE E. CALDWELL, teacher. Length of school, 10 weeks. Number of scholars, 9. Average, 8.9. Tardy marks, 0. Visits, 9. No school received better instruction from the state map. Map drawing was practised,—a matter too generally neglected.

DISTRICT NO. 9.—First term. Miss MARY E. RICHARDSON, teacher. Length of school, 6 weeks. Number of scholars, 5. Average, 5. Tardy marks, 0. Visits, 16. Second term, Miss EFFIE M. TAYLOR, teacher. Length of school, 13 weeks. Number of scholars, 5. Average, 5. Tardy marks, 0. Visits, 20. There were no absences during either term, and only two instances of dismissal. No other school has had as good an attendance for two terms in succession. Such laudable promptness makes failure an impossibility.

DISTRICT NO. 10.—Miss MARY E. WRIGHT of Keene taught both terms, giving excellent satisfaction. Summer term, length of school, 9 weeks. Number of scholars, 6. Average, 5.8. Tardy marks, 6. Visits, 9. Fall term, length of school, 13 weeks. Number of scholars, 4. Average, 3.5. Tardy marks, 3. Visits, 23.

DISTRICT No. 11.—First term, ORRE A. ISHAM of Marlow. Length of school, 7 weeks. Number of scholars, 9. Average, 8.9. Tardy marks, 0. Visits, 17. Examination in most respects creditable. Second term, Miss R. C. NICHOLS of Keene, teacher. Length of school, 7 weeks. Number of scholars, 12. Average, 11.2. Tardy marks, 6. Visits, 8. Noticeable improvement was made in most branches. Third term, Miss MARY DAVIS of Marlow, teacher. Length of school, 8 weeks. Number of scholars, 10. Average, 9.8. Tardy marks, 12. Visits, 19. Miss Davis is a good scholar, but failed to maintain order. One scholar had ten of the twelve tardy marks.

DISTRICT No. 12.—There were three terms of school taught by Miss ETTA A. NEWELL. First term, length of school, 9 weeks. Number of scholars, 11. Average, 10.75. Tardy marks, 4. Visits, 29. Second term, length of school, 5 weeks. Number of scholars, 13. Average, 12.5. Tardy marks, 6. Visits, 12. Third term, length of school, 9.4 weeks. Number of scholars, 16. Average, 15.5. Tardy marks, 9. Visits, 19. Decided improvement was made in scholarship and deportment.

DISTRICT No. 13.—Both terms were taught by Miss KATE E. MURDOUGH of Acworth. First term, length of school, 8 weeks. Number of scholars, 8. Average, 8, nearly. There was an absence of only one day. Tardy marks, 0. Visits, 20. Second term, length of school, 11.4 weeks. Number of scholars, 9. Average, 8.8. Tardy marks, 1. Visits, 26. The scholars committed to memory the names of all the towns in each county of the State. This was one of our best schools.

DISTRICT No. 13.—Lizzie A. Clark, Emma S. Hatch, Celia M. Austin, *Lora A. Washburn, Roscoe P. Clark, Duaine G. Clark, Susie A. Clark.*

MISCELLANEOUS REMARKS.

Whole number of scholars reported by the selectmen April, 1879,—boys, 96; girls, 64: total, 160. We have had 27 terms of school, of which 18 have been highly successful. Six have been medium, and three have not reached average rank.

Three teachers commenced school before applying for a certificate. Of the twenty-two different persons teaching, seven taught for the first time; viz., Mr. Carr and Misses Britton, Spencer, Whittier, Perham, Richardson, and Wright.

Average wages of teachers per month, including board, \$18.62. While the instances of tardiness have decreased nearly one half since last year, the percentage of attendance has increased from .90 to nearly .97, being ten per cent above the *average* of former years. The "roll of honor," also, is greatly increased in the districts reported. Scholars have generally been studious, and teachers, with less exceptions than usual, have been faithful in their work. Thus has the past year proved one of more than average success to our common schools.

Reading has generally received a good degree of attention. A few of our teachers have been fine readers. We suggest that in this exercise it is neither necessary or advisable to confine scholars strictly to the reading-book; a good selection from any source is always proper and often advisable. The reading of adults is not generally from text-books.

Spelling, while usually good, has, in a few instances, failed to receive that attention its importance demands. The writing of spelling lessons for older classes is recommended since in practice. Very little oral spelling is done.

Penmanship has been much above the average of former years. Let it be remembered that a good handwriting is far from being a useless accomplishment.

Arithmetic has developed very decided interest, and flattering success has attended the study, primary classes as well as others exceeding our highest expectations.

Geography has led all other studies in the degree of progress made. Much of this is due to an attractive and popular text-book.

History is too much neglected, especially general history. We have found Swinton's Outlines of General History a very interesting and valuable work upon this subject, and do not hesitate to recommend it.

Grammar has not sustained a very marked interest. Oral instruction has proved most beneficial.

Blackboards very generally need repainting, and several school-rooms need an increased supply. The average number of square feet of board to each room is twenty. One teacher reports *three square feet of blackboard*.

A fine house has been built for the school in No. 5, and the school-house in No. 13 has been neatly repaired.

A copy of the New Hampshire map has been placed in each district, and an experience of one term with them convinces us that they will prove a permanent benefit to our schools.

Respectfully submitted,

GEO. A. MAYO, *Sup't of Schools*.

REPORT OF THE BOARD OF EDUCATION.

To the Superintending School Committee of Alstead:—

The Board of Education of school district No. 4 submit the following report of the condition and progress of the schools in that district:

There were three terms in each department the past year; the summer term of the Grammar school was taught by Miss MARY A. WARDNER of Felchville, Vt., a teacher of large experience and good recommendations. Miss W. discharged her duty commendably, but had there been a livelier interest felt on the part of the pupils, much greater progress would have been made. We would rank the school about an average one.

The fall and winter terms (winter term in session) were both taught by Miss EMMA F. HOLMES of Walpole, a very successful and experienced teacher. We believe, during both terms, that the teacher has spared no efforts to make them pleasant and profitable, and regard them, as far as they can be so, entirely successful. A very great difficulty exists in the gradation of the school, that the Board hope to remove, and believe will contribute greatly to its advancement and success.

First term, length of school, 8 weeks. Whole No. scholars, 28. Average attendance, 25. Tardies, 20. Visits, 20.

Roll of honor, Fannie L. Sartwell, Mabel Ryder, Ella Huntley, Gracie H. Hitchcock, Fannie Vilas, Bertie Shepard.

Second term, length 11 weeks. Whole No., 34. Average, 32. Tardies, 56. Visits, 24.

Roll of honor, Lucy Livingston, Carrie N. Fiske, Ira W. Kingsbury, Arthur G. Fiske, Geo. C. Holmes, Walter T. Rogers, Harry E. Prentiss.

The primary school through the year was taught by Miss NELLIE N. FISKE. Very little need be said in regard to this school. Miss Fiske is a veteran among the little ones here, and all feel, with her as instructor, success will surely follow. Each term has been attended with entire success.

First term, length of school, 9 weeks. Whole No. scholars, 34. Tardies, 4. Average, 31. Visits, 21. Roll of honor, Minnie Sartwell, Lizzie Webster, Albertie L. Wilder, John D. Angier, Geo. E. Howard, John A. Webster.

Second term, length, 11 weeks. Whole number, 41. Average, 35. Tardies, 7. Visits, 37.

Roll of honor, Frances A. Ware, Albertie Wilder, Addie Thayer, Ava B. Turtellot, Alice G. Prentiss, M. Florence Lovell, E. Isabella Jennings, Mabel E. Dickey, John D. Angier, Eugene L. Robbins, Frank M. Wetherbee, Willie H. Wetherbee, Willie B. Webster, J. Walton Ware.

Third term, length, 8 weeks. Whole number, 35. Average, 32.

Roll of honor, Frank L. Pratt, John D. Angier, Willie B. Webster.

H. D. DICKEY,

For Board of Education.
